TURNING DATA INTO ACTION

RMG Consulting, LLC has developed and copyrighted an auditing and benchmarking process to statistically review each component of the claims handling process, and individually benchmarks each process.

This process combined with our claim auditing and operational experience allows us to design an extremely effective measurement program that will reduce costs and recover loss funds.

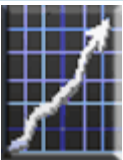

To maximize audit results, an auditor should be aware of the most significant areas for improvements before the claims files are selected for audit. This results in maximizing saving and minimizing expenses.
